Fisk Mfg. Co's Japanese Soap

Is manufactured of the purest Oils and Tallow of our own refining. It is a **PURE SOAP**, free from the many poisonous adulterations that are put into soaps at the present day to give them weight, etc. Many persons are suffering to-day on account of using impure soaps. The Japanese is adapted to the Laundry, Toilet, and Bath. It has no equal. Patented October 11, 1875, and September 18, 1877

THE JAPANESE

FISK MANUFACTURING CO.

SPRINGFIELD, MASS.

(Registered Oct. 11. 1875.)

Fisk Manufacturing Co.'s "**Extra Pale.**" Cut full weight. Two, three, and four pound bars. We maintain for it the justly merited reputation of being the "Best and Cleanest Bar Soap in America." Most bar soaps now in the market are composed almost entirely of rosin, poisonous and filthy grease, loaded with ground marble, silicon, pipe clay, lime, soda, caustics, etc., many being like the pressed cakes, wrapped, preventing them from drying and showing their true properties.

By using such soaps you destroy the clothes — a single garment, perhaps, costing more than a yearly supply of Fisk Mfg. Co.'s Pure Soaps, which do not yellow, rot, cut or grind the clothes.

Ask your grocer for them. Let them become hard and dry before using them. Look to their clothes-saving quality, which is true economy and cheapness.

LOOSE LEAF ACCOUNT BOOKS

Enable you to increase the volume of your Business without correspondingly increasing the expense in your Accounting Department

DOES OUR PERPETUAL LEDGER SAVE YOU MUCH TIME?

6349 Bookkeepers who had used our books more than three years were asked this question
6186 of them replied in the affirmative

LEAVES ARE HELD IN A VISE-LIKE GRIP WHEN BINDER IS CLOSED

PATENTED

SALES OFFICES IN ALL THE PRINCIPAL CITIES. WE VISIT EVERY TOWN IN THE UNITED STATES

NEW YORK OFFICE, 320 BROADWAY.

ADVANTAGES OF OUR SYSTEM

Perpetual
Dispenses with the annual transfer of ledgers. Once opened no further extra labor of the bookkeeper is required.

All Items of an Account
Are kept together, no matter what length of time the account covers, or how active it may be.

Live Accounts Only
Are retained in the Current Ledger. All filled leaves and closed accounts are filed in Transfer Ledger.

Quick Reference
The index being distributed through the book admits of locating the accounts much more rapidly. No separate index necessary.

Saves Time Posting and Balancing
As only open accounts are dealt with, and these are all properly arranged and their position is always the same.

Arrangement of Accounts
Can be had as to locality, by states or salesman's territory, in alphabetical order, as to time of opening, or activity.

No Spacing Necessary
Each account is given a separate leaf. Active accounts can therefore have unlimited space.

Less Liability for Error
Accounts are more surely located, and with one account on each leaf the proper space is readily found.

Expansive
It admits of insertion of new accounts from time to time in proper place without disturbing any other.

Easily Handled
As both sides of the leaf are used for each account, a much smaller sized book can be used.

Facility
One or a dozen persons can work on the books at one time in taking off statements or posting or balancing.

Convenience
Of having a customer's account all together, saving time of bookkeeper looking through a lot of old ledgers.

Simplicity
A trial balance is more readily taken off. Tabulation or abstract is simplified and systematized.

Adaptability
Any business of any size, or any sudden change in activity, as well as any arrangement necessary, can be accommodated.

Economy
In every case it costs far less in the long run — less in material, less in time, less in labor.

OVER 23,000 BOOKKEEPERS NOW USING OUR LEDGERS TESTIFY TO THESE POINTS OF SUPERIORITY

SPECIAL LOOSE LEAF SYSTEMS

For the Purchasing Department
Requisition Order Systems in Manifold, Quotation Record, Cost Book,
Purchase Record, Stock Report, Perpetual Invoice Filing System.

By the use of a number of these systems in combination, we not only accomplish what you now secure with your present methods, but in addition we give you an absolute check and instant reference as to goods ordered, en route and received; instant and accurate information as to the amounts owing; absolute certainty that accounts are correct, as you work with the O. K.'d invoice itself, and not with figures three or four times transferred from the original invoices; the assembling of all invoices for any one firm in one place; an absolutely flexible system that will work just as well with 50 as 5,000 accounts, which will save 25 to 50 per cent. of the amount of work done at present.

For the Sales Department
Order Blank System, Binders, Holders and Blanks; Manifold Order Books and Blocks.

We can create an Order System, suitable to any business, whereby the original order can be used for filling, shipping, billing and charging the order, and thereby eliminate all journalizing of sales.

Billing and Charging System.

Adapted to most any business — an invoice and journal entry being made at one writing.
Can be used either for typewriter or hand writing; produces an exact copy of every invoice.

Salesmen's Price Books, Route and Expense Reports, Advertising Information Reports.

For the Shipping Department
Safety Manifold Shipping and City Delivery Receipts and Books.

By the use of which errors in shipment are prevented and all possibility of loss through miscarriage eliminated

For the Accounting Department
In this department we offer the greatest labor-saving systems known to accountants. We can create for any mercantile or manufacturing business a complete system on the loose leaf plan whereby a daily statement of the condition of the business can be procured as soon as the day's posting is done, making a monthly trial balance unnecessary.

Perpetual Ledgers — General Sales and Creditors.
Perpetual Trial Balance and Proof Books, Journal, Cash and Other Auxiliary Books

On the loose leaf plan facilitate, to a great degree, the work of the accountant. We also furnish

Bills Payable and Receivable Forms, Voucher Systems, Check Registers,
Pocket Ledgers and Collection Reports.
Monthly Statement System.

Especially adapted to a credit business where an itemized statement is issued. By this system we save all itemizing in the ledger. It has many other commendable features.

Inventory System.

By which any number of clerks can work thereon at one time without the necessity of rewriting.

For the Manufacturing Department
We devise Special Factory Order Systems, Cost, Material and Labor Records, Time and Pay Roll Records, etc.

Factory cost accounting is one of our specialties, and we can provide a system by which an accurate account can be kept of all material, labor and expense, showing actual cost of each article produced.

For Banks and Trust Companies
Loose Leaf Systems have become generally recognized as especially suitable for Commercial and Savings Banks, and have been universally adopted for

General Individual and Liability Ledgers, Journals, Receiving Tellers' Reports, Clearing House Reports, Discount Registers and Ticklers, Check and Draft Registers, Collection Registers and Ticklers, Minute and Signature Books.

Our Daily Balance Book offers many advantages over any other system of daily balancing. We have also devised many useful manifold forms for the Collection Department, saving time and labor.

Baker-Vawter Audit Department
Regular and Special Audits made for Corporations, Firms and Individuals. Financial and Physical Examinations by Experienced Auditors and Engineers. Takes Entire Charge of Corporation and Private Records, and Keeps Accounts of Executors, Guardians, Trustees and Receivers. Has Competent Practical Examiners for Banks, Insurance Companies and Other Financial Institutions.

A certificate from this company after a thorough examination is useful as a basis for credit, purchase or sale.

Complete Business Systems Devised
This Company makes a Specialty of Devising Complete Systems for Financial, Mercantile and Manufacturing Institutions, Employing all Well-known, Proven Methods and Appliances.

By means of these harmonious systems the results in each department are known in detail at the close of business. Accurate account is kept with all stock purchased and sold. By removing all friction between employees and departments, all work is greatly facilitated, and time and labor saved. Correspondence solicited.

FIRE ALARM TELEGRAPH.

Instructions to Key Holders.—Key holders, upon positive information of a fire, will unlock the box, and, if the bell or the small bell in the box is

not striking, pull the hook down to the end of the slide once and let go immediately. Do not strike an alarm when the bells or the small bell in the box is striking, for in that case the alarm is already striking, and to give a second one would confuse the firemen. After giving an alarm, remain, if possible, until the steamers arrive, to direct them to the fire. If you hear no clicking sound in the box after pulling the hook, go to the next box, and give the alarm from that.

Do not give an alarm for a fire at a distance, *nor for a burning chimney.* Do not strike the alarm more than once from the same box. Be sure the box is locked before you leave it.

THE IMPROVED

Chadwick Copying Book

TRADE-MARK.

PATENTED OCTOBER 16, 1888.

These Books are made waterproof at binding and corners, and are provided with moistening pad and oil sheets, by the use of which a number of pages can be kept moist and ready for immediate use, DISPENSING ENTIRELY WITH WATER POT, BRUSH AND WET BLOTTERS. The pad is first wet with water, then placed in book, back of twenty or more sheets, and put in press until required for copying, when sheets will be found uniformly and thoroughly moist and VERY SUSCEPTIBLE TO ANY COPYING INK.

The back of the book being waterproof prevents the moisture from working into the binding or into leaves already copied on, and by similar treatment of corners leaves do not stick together and prevent rapid handling. The paper in these books is of extra strength, so they can be readily handled without tearing.

WE MAKE ANYTHING WANTED IN THE LINE OF LETTER OR INVOICE COPYING BOOKS.

THE SYSTEM PRACTICED BY ARTHUR DE COLLARD.

Report to the Bureau Materia Medica on the

Medical Physical Culture System,

By WILLIAM H. MORSE, M.D., F.S.S., etc., Consulting Chemist; author of the Text-book "New Therapeutic Agents."

TO WHOM IT MAY CONCERN:

In answer to the question, "What is to be said as to the Medical Physical Culture System?" I take pleasure in stating that this question came to me from a medical practitioner in the middle Connecticut Valley, and that, after having enjoyed the opportunity of thorough and careful investigation, I am able to certify that this is, indeed, a true Physical Culture System, the invention of a Twentieth Century man of science, Arthur de Collard. I have never met this gentleman, as my investigation has been conducted without his cognizance; but I have met with his principles, and with those who are profiting thereby, and the X-rays of this Double-X Century reveal an honorable achievement in Medical Science, eminently calculated to conduce to the advantage of Health. It is not only a system unlike all other systems, but it is one that has exhaustively gathered into itself all that is workable and worthable in them all. The idea is to cultivate Health; and where there is well-cultured Health, disease is both prevented and eradicated. Thus, its cures stand forth in absolute harmony with Nature, and are as insistent as they are consistent, as persistent as they are permanent, practical and reasonable. Thus it is a highly rational method of opposing human ailments. It opposes because it removes the causes. It removes them effectually. It is a Science. It is a great discovery. It can be practically applied. It builds up the body, in every tissue, in every fluid. By its salutary teaching and influence, every cell and particle responds to Health, and every function is made agreeable to that which Nature enjoins. Mr. de Collard is certainly a genius. He is not only up-to-date, but he is, as well, in no danger of getting out of date. He has made a date with the times, and he is evidently one of those men who delight in having the times in training. His system is cheerful as well as cheering, and it is no wonder that it is growing in favor with those intelligent people who know the best when they see it. I do not make out anything in the public literature of the System that is at all extravagant, and it is pleasant to say that it is illimitable in its application to diseases. Let it be adopted; let it be adapted.

WILLARD H. MORSE, M.D., F.S.S., etc.,
Consulting Chemist.

Reporting to the Bureau of Materia Medica 4-1-1902.

Author of the Text-book "New Therapeutic Agents." Fellow of the Society of Science (London), American Director (1898-1900) of the Bureau of Materia Medica, etc.

ARTHUR DE COLLARD.
